Horses seemed less vulnerable to scalding and chafing by saddles and cinches. Green decided that if a horse's color has anything to do with its stamina, intelligence, or soundness, he had better learn about it. He became a horse trader, a horse breeder, and finally a veterinarian.

Dr. Green began his research into equine coloration in the 1940's in West Texas where, as he put it, "Horses were cheap and there was an array of colors that was unmatched anywhere else in North America." he continued his studies in Europe, south America, and the Middle East. Dr. Green compiled his discoveries int o this well-documented and easy-to-read book,originally published in 1974, about why equine color occurs as it does and how to identify it. Popular and respected among horse breeders, traders, owners, riders, and admirers, The Color of Horses is a standard reference on race tracks, farms, and ranches worldwide.

Each detailed description of color includes an diagram of pigment arrangement, thirty-four reproductions of oil paintings by renowned western artist Darol Dickinson depict the colors that Dr. Green isolated and described. Author and artist collaborated to assure that each painting portrayed the precise results of Dr. Green's research.

This copy is a softcover. First Edition, Fifth Printing - 1991

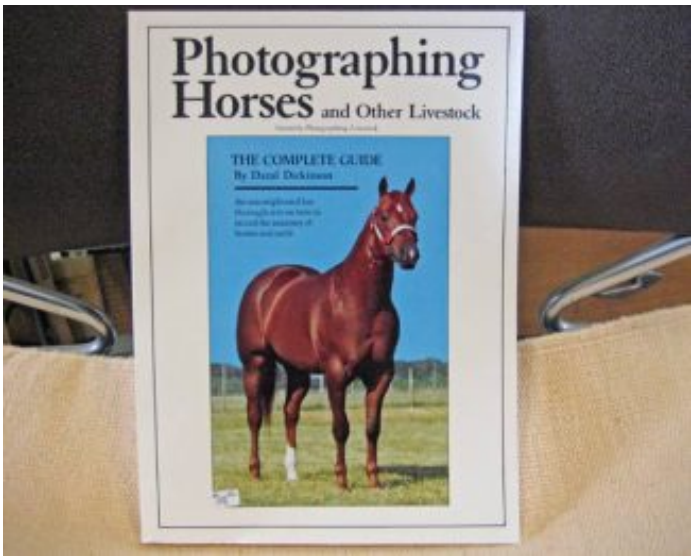

PHOTOGRAPHING HORSES AND OTHER LIVESTOCK - DAROL DICKINSON (USED)

Many fine animals have lived, gained fame perhaps, and died, never having been photographed correctly. Their admirers and owners have then spent hours over the curled-up snapshots explaining how much better than the photos the animal actually

was. While high-quality livestock is on the increase today, there is a lack of high-quality livestock photography to properly record these animals' superior anatomy and performance.

Darol Dickinson has written a complete guide to better livestock photography. With years of experience behind him, the author provides concise but detailed instruction on every major aspect of livestock photography.

The text is fully illustrated with examples of how your photographs should and shouldn't look. Those without photographic experience can use this valuable reference as a how-to manual; those with more background will be able to use the technical information.

HORN STEW - DAROL DICKINSON

Horn Stew
by Darol Dickinson

Horn Stew Book Cover

Horn Stew is exactly like the earlier book, Fillet of Horn, except totally different. Horn Stew doesn't have a semi-load of cattle rustlers and crooks, but replaces them with some bigger-than-life, colorful, business tycoons. These interesting tycoons mostly had certain things in common: the drive-your-wife-crazy chance-taking, the $317 bull that sold for $1,000,000, and such a love for great livestock that multi-millionaires even slept in the barn with their livestock to protect their investments.

Here are short histories about people who loved their cattle and horses way beyond normal sensibility—enough that a level-headed psychotherapist could go bonkers trying to straighten them out. You will find personalities with bold enchantment and die-for devotion to breed extraordinary genetics—folks like Walter Merrick, Carl Miles, Hank Wiescamp, Frank Doherty, Michael Mulberger, and Fennel Brown.

You will picture the excitement of finding semi-coherent, famished swamp cattle with million-dollar genetics—unknowingly wanting to be rescued, become pampered and highly appreciated. Sense the thrill as they are acquired by risk and stealth. Watch them step off your own trailer, at home, forever admired, and soon to be famous.

Watch the inner workings of a conniving Tulsa police detective apply his most devious brilliance to win Quarter Horse Championships at the highest levels.

Watch my dad fulfill his dreams, from a little boy picking cotton on a sharecropper's farm to breeding and exhibiting a pasture full of World Champions.

Learn to understand the legendary horseman Henry J. Wiescamp, a personal side combined with a business mind of unbelievable depth and chicanery.

In the end, learn the three ingenious common denominators of every great and highly successful livestock producer—by just reading on to the next chapter.

Fillet Of Horn by Darol Dickinson. Featuring 34 accounts of buying and selling Texas Longhorns all over the world and the unique characters who may be cattle rustlers. FILLET OF HORN

by Darol Dickinson

A fillet is the best tasting, most memorable, and enjoyable part of the horn. Now, some say you can’t eat a horn sandwich, and others say they’ve done it. Some like’em with Tabasco, and others like to eat’em with jalapeños. No matter what your

taste, you'll find this book to be spicy, enjoyable, and satisfying. The reader is about to digest a treat he has never before tasted.

Fillet Of Horn stampedes from Colorado to Poland, Ohio, Canada, Africa, Holland, Texas, and the Philippines. This nonfiction account of escapades, ranch business, Texas Longhorn trading, stolen cattle losses and repossessions, will take the reader part-way into the old West, but not far enough from civilization that he can't find his way back home at night.

Along this Texas Longhorn trail, you will bump into folks who will surprise the horns off ya. Watch for Robert Mitchum, P. T. Barnum, Elizabeth Taylor, Andre the Giant, John Wayne Bobbitt, Red McCombs, Malcolm Forbes, Barry Goldwater, Ben K Green, Col. Oliver North, Rob Reiner, Arnold Schwarzenegger, Hulk Hogan, Ronald Reagan, John Wayne, Elizabeth Vargas, Richard Farnsworth, The Sultan of Brunei, Hoss Cartwright, and Congressman Joel Hefley. Somehow, they manage to co-mingle through the chapters of this book to play a unique role.

These jam-packed, thirty two chapters are guaranteed to take you places you can't get to from where you are. You will have to mosey down these cattle trails, smell the bull dust, watch for the distant patrol car, and spend some time under the drawbridge to really get the feel of it. Don't be afraid. You are a safe distance from the branding fire even though a little singed hair never killed anyone. Take a chance.

If you are a speed-reader, this isn't the book for you. You can't fly through it like a bull that's been shot from a circus canon and still catch the nutrition as it goes by. Take it slowly. Treat FILLET OF HORN like a wonderful homemade mincemeat pie. Take small bites, chew slowly, and savor the flavor of real horn. Don't gulp! Make it last a week or so. Once you own the book, just

The negotiations go from Canada to Texas to Poland and back. There are good and bad people in every chapter, honest ones and crooks. Four chapters document efforts to recover or collect proceeds on stolen cattle. Chapters record events where deals were made with Red McCombs, Col. Oliver North, Johnny Cash, Andre the Giant, Lynn Anderson, Blackie Graves, Sam Partlow, Dr. Ben K Green, Robert Mitchum, and Congressman Joel Hefley. The content jumps from cattle to championship Quarter Horses, African Watusi, Dutch BueLingo then to the Western Art world and back to the comfortable Texas Longhorn pastures.

GET THE WHOLE HORN SERIES, FILLET OF HORN, HORN STEW AND LARAPIN HORN FOR $65 PP.

by Darol Dickinson

So every reader starts out on even footing, I'll tell you that the word larapin is mostly Midwestern, Southern, and Western. Festus used it thrice on Gunsmoke. The on-line Community Dictionary says that it means "Over the top in delectable flavor, seasoning, and texture. Superior taste in the food, sauce,

drink, or dessert. Memorable meal.”

Now that there is no confusion, larapin is what everyone wants in a great meal. So, as verbalized food goes, my goal is to make Larapin Horn the absolute best in country, western, and seriously unadulterated flavor. It should have the right spiciness, stick in long-term memory, and be totally different from your last book-meal—even better.

Follow along the Larapin trail and watch at every turn—not just for old-fashioned banditos and thug-whoppers, but also upscale white-collar criminals, government agents lurking behind the barn, and some technical legal tips for using the IRS’s own regulations to avoid tax increases. It’s all just simple stuff, if you’re ready for it.

Learn why John Wayne, while filming The Alamo (1960), purchased a huge Texas Longhorn steer from the Longhorn association president Jack Phillips, then how within minutes cast members of Santa Anna’s Mexican army killed the steer and ate him. Learn the art of babysitting grandkids without spending prison time for child abuse. Follow the account of event promotion using Hollywood celebrities for frolic and profit. Get the full story behind the daily stampede of Texas Longhorns through downtown Fort Worth. Learn from a boy and his bike the difference between peddling and pedaling for ranch-marketing success. Find proven techniques for hiring former convicts and not having everything stolen from the property. And last but not least, pick up real-world tips on buying and selling ranches for profit.

You’re welcome to dog-ear or underline the best stuff with a crayon or can of spray paint.

You will not drop off to sleep while reading Larapin Horn.

2025 Texas Longhorn Celebrity Calendar

The 2025 Texas Longhorn Celebrity Calendar featuring colorful ranch scenes and portraits of famous Longhorns is now ready for distribution. The new (printed in Ohio, USA) collector's edition features 15 graphics selected from ranches in Ohio, Colorado, Texas, West Virginia, Florida, and Pennsylvania. Internationally famous cattle such as PCC Dark Knight, Point Over, Iron Span, Stop Already, Brazos Tuff Cowboy 901, Silent Iron and BR Jenny Belle elegantly decorate each calendar month. These are some of the most valuable, huge horned exhibition quality cattle in the nation.

This magnificent full color laminated calendar easily encourages every future cattle person to dream of the day they also can have their own colorful Texas Longhorn herd. The popularity of lean, high omega 3 beef, and the Texas Longhorn breed has caused increased value for producers of this healthy bovine. Texas Longhorns are one of the fastest growing breeds in the USA.

LARAPIN HORN

So every reader starts out on even footing, I'll tell you that the word larapin is mostly Midwestern, Southern, and Western. Festus used it thrice on Gunsmoke. The on-line Community Dictionary says that it means "Over the top in delectable flavor, seasoning, and texture. Superior taste in the food, sauce, drink, or dessert. Memorable meal."

Now that there is no confusion, larapin is what everyone wants in a great meal. So, as verbalized food goes, my goal is to make Larapin Horn the absolute best in country, western, and seriously unadulterated flavor. It should have the right spiciness, stick in long-term memory, and be totally different from your last book-meal—even better.

Follow along the Larapin trail and watch at every turn—not just for old-fashioned banditos and thug-whoppers, but also upscale white-collar criminals, government agents lurking behind the barn, and some technical legal tips for using the IRS's own regulations to avoid tax increases. It's all just simple stuff, if you're ready for it.

Learn why John Wayne, while filming The Alamo (1960), purchased a huge Texas Longhorn steer from the Longhorn association president Jack Phillips, then how within minutes cast members of Santa Anna's Mexican army killed the steer and ate him. Learn the art of babysitting grandkids without spending prison time for child abuse. Follow

Western cattle admirers will cherish this collection of hand-picked graphics of nationally famous cattle which will be perfect for framing or decoupage at year’s end. This year's scope goes from Pikes Peak in the Rocky Mountains to the swamps deep in Florida and even to one shot of a whole herd of Texas Longhorns racing under a house.

The front cover was captured by Paul White, Wilderness Shores Ranch, Lakeland, Florida. Although his Texas Longhorn herd is growing rapidly, the Aligators are almost as numerous all over the shallow waters of the ranch swamp areas.

For 47 years this cattle lover’s calendar has been produced and distributed world wide. The calendar is a large 13” x 20” open, wall size. It is printed by Freeport Press, New Philadelphia, Ohio, USA. Past editions have been recipients of Award of Merit and World Calendar awards. For ordering information, TLCC, 35000 Muskrat, Barnesville, Ohio, 43713 USA or tlcc@texaslonghorn.com.
