As a young boy working in a livery stable and listening to cowboy conversations, Ben Green realized that people preferred different-colored horses for different reasons. Driver prized highly teams that matched in color and size. Traveling salesmen chose solid bay teams because they had more endurance. Dark Horses seemed less vulnerable to scalding and chafing by saddles and cinches. Green decided that if a horse's color has anything to do with its stamina, intelligence, or soundness, he had better learn about it. He became a horse trader, a horse breeder, and finally a veterinarian.

Dr. Green began his research into equine coloration in the 1940's in West Texas where, as he put it, "Horses were cheap and there was an array of colors that was unmatched anywhere else in North America." he

continued his studies in Europe, south America, and the Middle East. Dr. Green compiled his discoveries into this well-documented and easy-to-read book, originally published in 1974, about why equine color occurs as it does and how to identify it. Popular and respected among horse breeders, traders, owners, riders, and admirers, The Color of Horses is a standard reference on race tracks, farms, and ranches worldwide.

Each detailed description of color includes an diagram of pigment arrangement, thirty-four reproductions of oil paintings by renowned western artist Darol Dickinson depict the colors that Dr. Green isolated and described. Author and artist collaborated to assure that each painting portrayed the precise results of Dr. Green's research.

This is a used book is in decent condition except for the dust cover. Most of them this age have lost their dust covers. It will be signed by Darol Dickinson. Custom personalized signing upon request.

## Horn Stew Book Cover

Horn Stew is exactly like the earlier book, Fillet of Horn, except totally different. Horn Stew doesn't have a semi-load of cattle rustlers and crooks, but replaces them with some bigger-than-life, colorful, business tycoons. These interesting tycoons mostly had certain things in common: the drive-your-wife-crazy chance-taking, the \$317 bull that sold for \$1,000,000, and such a love for great livestock that multi-millionaires even slept in the barn with their livestock to protect their investments.

Here are short histories about people who loved their cattle and horses way beyond normal sensibility—enough that a level-headed psychotherapist could go bonkers trying to straighten them out. You will find personalities with bold enchantment and die-for devotion to breed extraordinary genetics—folks like Walter Merrick, Carl Miles, Hank Wiescamp, Frank Doherty, Michael Mulberger, and Fennel Brown.

You will picture the excitement of finding semi-coherent, famished swamp cattle with million-dollar genetics—unknowingly wanting to be rescued, become pampered and highly appreciated. Sense the thrill as they are acquired by risk and stealth. Watch them step off your own trailer, at home, forever admired, and soon to be famous.

Watch the inner workings of a conniving Tulsa police detective apply his most devious brilliance to win Quarter Horse Championships at the highest levels.

Watch my dad fulfill his dreams, from a little boy picking cotton on a sharecropper's farm to breeding and exhibiting a pasture full of World Champions.

Learn to understand the legendary horseman Henry J. Wiescamp, a personal side combined with a business mind of unbelievable depth and chicanery.

In the end, learn the three ingenious common denominators of every great and highly successful livestock producer—by just reading on to the next chapter.

## PROMOTIONAL BOOKLET SET

Marketing Booklet Set

**KNOWLEDGE IS POWER**-- Two publications are now available for Texas Longhorn producers to fine tune their business plan. It isn't fun to march into unknown jungles; use the experience of those who have gone before and profit from the mistakes and success of others.

**PROFITING FROM RAISING TEXAS LONGHORN CATTLE** was first printed by ITLA in 2007. It is 29 pages containing 8 chapters all about marketing. Chapters are written by experienced people Charlene Semkin, Diana Miltimore, Stan Searle, Larry P Smith II, and Darol Dickinson.

It details generating sales, profiting from print, developing a marketing plan, customer files, the 3 profit plans, and how Texas Longhorns can be more profitable than other breeds. The reader will have enough technique to be very successful if only a few of the ideas are implemented.

**RAISING TEXAS LONGHORNS AS A BUSINESS - FOR BEEF** was first printed as a

done it. Some like'em with Tabasco, and others like to eat'em with jalapeños. No matter what your taste, you'll find this book to be spicy, enjoyable, and satisfying. The reader is about to digest a treat he has never before tasted.

Fillet Of Horn stampedes from Colorado to Poland, Ohio, Canada, Africa, Holland, Texas, and the Philippines. This nonfiction account of escapades, ranch business, Texas Longhorn trading, stolen cattle losses and repossessions, will take the reader part-way into the old West, but not far enough from civilization that he can't find his way back home at night.

Along this Texas Longhorn trail, you will bump into folks who will surprise the horns off ya. Watch for Robert Mitchum, P. T. Barnum, Elizabeth Taylor, Andre the Giant, John Wayne Bobbitt, Red McCombs, Malcolm Forbes, Barry Goldwater, Ben K Green, Col. Oliver North, Rob Reiner, Arnold Schwarzenegger, Hulk Hogan, Ronald Reagan, John Wayne, Elizabeth Vargas, Richard Farnsworth, The Sultan of Brunei, Hoss Cartwright, and Congressman Joel Hefley. Somehow, they manage to come-ingle through the chapters of this book to play a unique role.

These jam-packed, thirty two chapters are guaranteed to take you places you can't get to from where you are. You will have to mosey down these cattle trails, smell the bull dust, watch for the distant patrol car, and spend some time under the drawbridge to really get the feel of it. Don't be afraid. You are a safe distance from the branding fire even though a little singed hair never killed anyone. Take a chance.

If you are a speed-reader, this isn't the book for you. You can't fly through it like a bull that's been shot from a circus canon and still catch the nutrition as it goes by. Take it slowly. Treat FILLET OF HORN like a wonderful homemade mincemeat pie. Take small bites, chew slowly, and savor the flavor of real horn. Don't gulp! Make it last a week or so. Once you own the book, just

5 part series by the TLBAA TRAILS during the Spring of 2014. The 5 part continued drafts were commissioned by the TLBAA CEO to outline all the steps necessary to successfully start, grow, profit from and expand the lean-beef Texas Longhorn retail meat business.

It details the world meat industry, now it works and how it has failed. It provides instructions for starting a retail instead of wholesale business. How to expand and develop market share. Evaluating inventory for real retail meat sales value. By-products and how to make extra profit.

It is 23 pages containing all 5 articles.

**Fillet of Horn II** is available on computer or eReaders with full color capabilities. It is 435 pages, full color and 35 chapters. Other than a few names changed to protect the guilty, it is an autobiography. Accounts involve buying and selling registered Texas Longhorn cattle by the semi load and by the pound. The negotiations go from Canada to Texas to Poland and back. There are good and bad people in every chapter, honest ones and crooks. Four chapters document efforts to recover or collect proceeds on stolen cattle. Chapters record events where deals were made with Red McCombs, Col. Oliver North, Johnny Cash, Andre the Giant, Lynn Anderson, Blackie Graves, Sam Partlow, Dr. Ben K Green, Robert Mitchum, and Congressman Joel Hefley. The content jumps from cattle to championship Quarter Horses, African Watusi, Dutch BueLingo then to the Western Art world and back to the comfortable Texas Longhorn pastures.

**Fillet of Horn**, the original hard back, is partially contained in this eBook format plus several new chapters have been added. **Fillet of Horn II** is over 100 pages more than the original book. The most popular chapters are revised and remain in **Fillet of Horn II**.

## PHOTOGRAPHING HORSES AND OTHER LIVESTOCK - DAROL DICKINSON

Many fine animals have lived, gained fame perhaps, and died, never having been photographed correctly. Their admirers and owners have then spent hours over the curled-up snapshots explaining how much better than the photos the animal actually was. While high-quality livestock is on the increase today, there is a lack of high-quality livestock photography to properly record these animals' superior anatomy and performance.

Darol Dickinson has written a complete guide to better livestock photography. With years of experience behind him, the author provides

concise but detailed instruction on every major aspect of livestock photography.

The text is fully illustrated with examples of how your photographs should and shouldn't look. Those without photographic experience can use this valuable reference as a how-to manual; those with more background will be able to use the technical information.

## LET NO GUILTY MAN ESCAPE - ROGER H TULLER

Let No Guilty Man Escape - A Judicial Biography of Hanging Judge Isaac C. Parker.

Presiding from 1875 to 1896 over the United States Court for the Western Judicial District of Arkansas, Isaac Charles Parker attained notoriety as the "Hanging Judge" responsible for law and order in Indian Territory. Popular accounts have portrayed him as a jurist driven relentlessly by a Biblical sense of justice to administer absolute authority over a lawless jurisdiction inhabited by bold outlaws.

"Let No Guilty Man Go Free", the first new Parker biography in four decades, corrects this simplistic image by presenting Parker's unique brand of frontier justice within the legal and political context of his time. Using primary documents from the National Archives, Missouri court records, and other sources not included by previous biographers, Roger H. Tuller demonstrates that Parker was an ambitious attorney who used the law to advance his own career. Parker rose from a frontier Missouri lawyer to become a congressional representative, and when Reconstructionist-era politics denied him continued progress, he sought the judicial appointment for which he is most remembered.

Although he sent seventy-nine felons to the gallows, Parker's public hangings were actually restricted by federal officials, commutations, and pardons, as well as

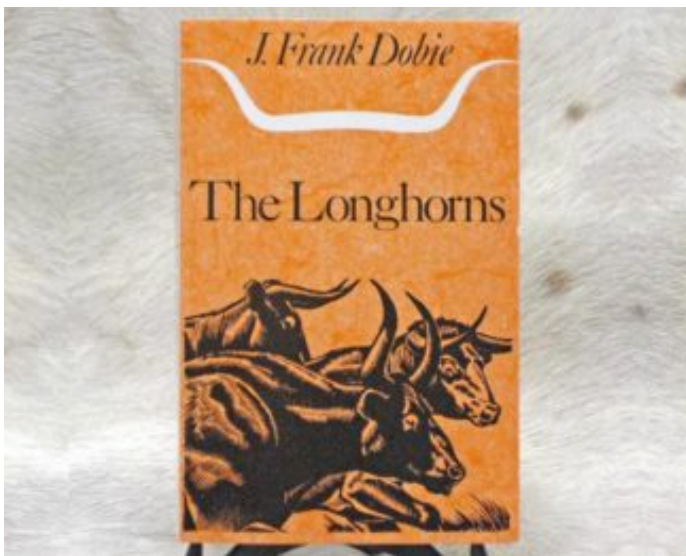

Supreme Court rulings. In an ironic twist, during his final public interview, the "Hanging Judge" claimed he supported the abolition of the death penalty.
